# MVIS™ VENEER MORTAR

LATICRETE® Masonry Veneer Mortar is a patented, versatile polymer fortified adhesive designed specifically for the installation of adhered masonry veneer, stone and thin brick.

Product Data Sheet DS 1076

## FEATURES

- Non-sag performance
- Revolutionary formula
- Mixes with water
- Polymer fortified
- Exceeds AS ISO 13007.1

## BENEFITS

- Allows for faster, easier installations
- Maximum bond strength to veneers and substrate
- No admix needed
- Superior performance and workability
- Exceeds the industry's highest performance standard for cementitious based adhesives

## Uses

- Vertical, horizontal, and overhead installation of natural stone, manufactured stone and thin brick veneers
- Interior and exterior installations
- Commercial and residential

## Packaging

20 kg bag; 56 bags per pallet

## Available Colours

Grey

## Approximate Coverage Per Bag

6 mm x 9 mm notched trowel	5.5 – 6.2 m <sup>2</sup>
12 mm x 12 mm notched trowel	4 – 4.5 m <sup>2</sup>
Adhered Masonry Application Method	2.75 – 3.25 m <sup>2</sup>

N.B: Coverage Calculated with the trowel held at 45°. Coverage will depend on how the trowel is used and surface regularity.

## Suitable Substrates

- Cement Mortar
- Cement Backer Board\*
- Masonry & Brick
- Concrete
- Concrete Block

\* Consult cement backer board manufacturer for specific installation recommendations and to verify acceptability for exterior use.
