

PERMACOLOR® *SELECT*

You'll never look at grout the same again!

Snap for more information.

Globally Proven Construction Solutions

Industry Leading Performance

PERMACOLOR® Select is an advanced high performance cement grout that offers the industry's first dispersible dry pigment solution. PERMACOLOR Select is designed for virtually all types of residential and commercial installations, and offers optimum performance on the most demanding exterior or interior applications. Easy to mix, grout and clean, PERMACOLOR Select is fast setting and is suitable for joints 1.5 mm to 12 mm wide on floors or walls.

Features and Benefits:

- Enhanced stain resistance – equipped with STONETECH® Sealer Technology – No Sealing Required
- Vibrant consistent colour – resists efflorescence
- Reinforced with Kevlar® – crack and shrink resistant
- Fast setting – ready for foot traffic in 3 hours

STONETECH® Sealer technology provides enhanced stain repellency

Colour Kits are Available in
40 Vibrant LATICRETE Colours

Plus the top competitor colours

PERMACOLOR Select – You’ll Never Look at Grout the Same Again!

PERMACOLOR Select is a paradigm shift in both grout performance and in the business/logistics aspect of grout. Offering the industry’s first dispersible dry pigment solution, PERMACOLOR Select separates the coloured pigment from the highly engineered PERMACOLOR Select Base. Now you and your customers can Select your size, Select your colour and eliminate excess inventory cost, inventory space and hassle traditionally associated with grout.

Here’s How It Works:

PERMACOLOR Select is available in either a 11.3 kg or 5.6 kg bag “Base” which excludes any colour pigment in the bag – think of it as a neutral base ready to accept pigment.

All 40 LATICRETE colours, plus top selling competitor colours, are offered in “Colour Kits” shown here.

Base Powder System:

Colour Kit Contents:

Each Colour Kit contains two “Colour Packets.” Simply mix two Colour Packets for one 11.3kg bag or one Colour Packet for one 5.6kg bag. Just Remember, 2 for a 11.3kg and 1 for a 5.6kg.

Drop packs into water

Add base powder

Mix and then grout

A Business and Logistics Innovation to Improve Your Financials

REDUCE GROUT INVENTORY VALUE

50%

Until now, innovations in grout have only been with the actual product itself. PERMACOLOR Select offers industry leading performance, but is also the first to innovate the business and logistics of grout – for you and your customers. The true paradigm shift PERMACOLOR Select offers is how grout is ordered, inventoried and sold – resulting in your business running more efficiently and much more profitably.

100% INCREASE IN TURNS

Carry only the inventory you need, when you need it. Think of the value of your current cement grout inventory, all of those bags and cartons just sitting on a shelf – dollars that can be saved or directed towards marketing and selling efforts to increase your sales and profits – eliminate grout obsolescence!

Only two pallet spaces are needed for the PERMACOLOR Select Grout Base and one shelf for the PERMACOLOR Select Colour Kit pigment. Save dozens of pallet spaces in your warehouse by eliminating inventory of individual bags per each colour you stock.

REDUCE GROUT PALLET SPACE REQUIREMENTS BY

80%

Expanded Colour Availability and Options

With PERMACOLOR Select Colour Kits, you can stock all 40 LATICRETE colours, plus the top selling competitor colours – all without the inventory dollar investment or space requirements. Never miss out on a specification or request from a contractor for a colour you didn't have before!

Improve Order Pick Time and Accuracy

Picking and packing orders for your warehouse personnel will be easier – no need to waste time searching for colours or moving of bags and pallets.

Order Fulfillment

If you run out of a particular colour, the Colour Kits can be directly expedited to you or your customer with minimal shipping cost from our Rapid Fulfillment Centre.

Reduce Grout Breakage

Greatly reduce grout breakage through less handling and moving of inventory as PERMACOLOR Select requires less space and can be picked and handled easier.

Save Labour Handling Costs

Virtually eliminate the time and costs associated with unpacking grout bags from pallets then having to restack on your shelf, plus no more having to rotate inventory!

Provide Unmatched Value to Your Customers

Many of the logistics and financial benefits you will gain from PERMACOLOR Select will also be realised by your customers. Inexpensive PERMACOLOR Select Colour Kits can be stored in their warehouse providing flexibility and options to their customers while avoiding excess inventory costs and space devoted to hundreds of bags of grout.

Your business financials and operations improve and your customers business improves. PERMACOLOR Select is a paradigm shift in grout with industry leading innovation!

The Grout Game is Changing on

- No sealing required
- Extremely consistent colour
- Reduce grout inventory value by 50%
- 80% less pallet space required
- 100% increase in turns
