Construction Solutions

# HYDRO BAN®

## Liquid Applied Waterproof Membrane

### FEATURES

- No fabric required
- Single component
- Easily applied with roller, brush, trowel or airless sprayer
- Bonds directly to copper, metal, PVC and ABS plumbing fixtures
- Fast time to flood test
- Foot traffic in 4 – 6 hours
- Lighter colour dries to a darker colour

### BENEFITS

- Greater crack bridging ability with improved productivity
- No mixing involved, just open the pail and begin applying.
- Easy to apply, no special techniques involved.
- No need to use multiple materials around pipe penetrations or drains, one product does it all.
- Greatly increases productivity during the tile installation saving time and money.
- Cures quickly allowing for a shorter time to the tile application.
- Gives colour indication between coats for correct coverage

### Uses

- Swimming pools, fountains and water features
- Shower pans, stalls and tub surrounds
- Industrial, commercial and residential bathrooms and laundries
- Internal wet area work
- External above ground work

### Suitable Substrates

- Concrete
- Cement mortar beds
- Cement backer board†
- Concrete masonry
- Cement plaster
- Brick masonry
- Ceramic tile and stone\*
- Cement terrazzo\*
- Gypsum wallboard‡

### Packaging

- Trade Unit:**  
15 litre pail; 36 pails per pallet
- Mini Unit:**  
3 x 4 litre carton; 32 cartons per pallet

### Available Colour

Olive Green

### Approximate Coverage

15 litre pail	18 m <sup>2</sup>
4 litre pail	4.8 m <sup>2</sup>

### Meets and exceeds Australian Standards AS4858 and AS4654.1

Highly Extensible Class 3 Membrane
