

Globally Proven
Construction Solutions

LATABOND™

FEATURES

Tenacious bond

40 minute open time

Smooth creamy formula

Specially formulated for porcelain tile

Stable, long-life formulation

BENEFITS

Superior adhesion to a wide variety of substrates and veneers, allowing for installations in virtually all climates and conditions such as exterior facades, pools and fountains.

Increases productivity and flexibility on the job site, resulting in fast, accurate installations.

Easy to trowel adhesive assures proper coverage on both the substrate and the veneer, as well as reduces fatigue.

Provides 2.5 times the requirement for shear bond strengths.

Will not deteriorate over time, making LATABOND™ suitable for interior and exterior applications, particularly continuous submersion.

Uses

- Increased bond and compressive strength
- Used in place of water, LATABOND improves the working and physical properties of any cement mix and provides an economical and easy way to make permanent, trouble-free installations

Suitable Substrates

- Concrete
- Cement renders and plasters
- Cement mortar beds

Packaging

20 litre pail; 32 pails per pallet

- Ceramic tile and stone
- Concrete masonry
- Brick
