SPECTRALOCK® PRO Premium Grout†

Data Sheet
DS-1191

FEATURES

- StainProof[^]
- Improved non-sag formula
- Exceeds the requirements of AS ISO13007.3
- Vibrant, consistent colour
- Unique design capabilities

BENEFITS

SPECTRALOCK PRO Premium Grout[†] is StainProof and never needs sealing; helps keep tile installation looking brand new for years. One grout does it all; SPECTRALOCK PRO Premium Grout is easy to install on both wall and floors; resulting in beautiful flush grout joints.

Improved physical properties make installations stronger and more durable, with excellent stain and chemical resistance.

Excellent colour uniformity; no blotchiness or shading, will not discolour from neutral household cleaners. Non-pigmented.

Optional DAZZLE™ component is a design element that compliments tile and stone; metallic accents, mother of pearl and glow-in-the-dark, just to name a few, bring grout to the forefront; designers can now specify grout as part of the overall tile and stone design instead of minimizing the grout joints; DAZZLE™ component offers up to 220 colour combinations when mixed with SPECTRALOCK PRO Premium Grout.

Uses

- Interior and exterior on floors and walls^{^^}
- Residential and commercial
- Swimming pools, fountains and permanent wet areas
- Ideal for regrouting applications

Refer to Data Sheet DS-1192 for limitations.
