Globally Proven Construction Solutions

THE FUTURE IS IN FINISHING MORE PROJECTS ON TIME AND ON BUDGET, BOOSTING YOUR REPUTATION AND WINNING MORE BIDS.

WE CAN HELP.

These products will help you when facing compressed schedules and controlled jobsite access requiring finishing jobs faster with less manpower.

- **RAPID** cure times and fewer steps speeds installations, meeting tight-turnaround times
- Proven product formulations that work overtime so you don't have to
- Finishing your installation faster helps get following trades back to work much faster
- 2-in-1 and 3-in-1 step products shave days, even weeks off schedules
- One-stop, single source complete with installation, technical and warranty support
- All LATICRETE® **RAPID** and Quick Cure products are in stock and ready-to-ship

LATICRETE UNIVERSITY TRAINING

Learn about LATICRETE® products that can speed up your installation and help get your projects back on schedule. Access our free LATICRETE University online training program 24/7 from the comfort of your home or office.

HYDRO BAN Shower Pan CD KIT	5 hours	72+ hours mortar bed	

LATICRETE® Installation Systems Materials referenced herein may be part of a complete installation system. Consult the specific LATICRETE Product Data Sheet for complete installation information.

RAPID PRODUCTS AND SYSTEMS: WHY WAIT.

INTERIOR, EXTERIOR, COMMERCIAL, RESIDENTIAL AND INDUSTRIAL

We cover it all with professional grade products and systems that work together enabling faster installations, getting more done in less time.

TILE AND STONE INSTALLATIONS

Significantly reduced cure times have a compound effect on speeding up installations. The SPECTRALOCK® line is the fastest epoxy grout on the market. Our RAPID adhesives including TRI-LITE™ Rapid, 253R Gold, 254R Platinum and 4-XTL Rapid cure in 2-4 hours vs. traditional adhesive cure times that may take 24 hours. Need a fast turnaround, use our grouts, sealants and adhesives.

SURFACE PREPARATION

Traditional moisture mitigation and self-leveling underlayment installations shut down most trades from working in or near that space for days, even weeks. Not so with the unmatched performance of VAPOR BAN™ Primer ER and the SUPERCAP® Delivery System. Contractors experience installations that puts days, even weeks back onto a GC's build schedule.

RESINOUS AND DECORATIVE FLOORING

Offers fast return to service; minimum downtime and are customizable with beautiful aesthetics. Seamless, nonslip, durable antimicrobial flooring, withstands heavy foot traffic, low maintenance and resists stains and chemicals. Ideal for healthcare, senior housing, multi-family and education facilities, retail and convenience stores, showrooms, garages, airplane hangers and hospitality.

SHOWER INSTALLATION SYSTEMS

Only LATICRETE provides all of the installation materials to complete the job. HYDRO BAN® Quick Cure Waterproofing Membrane allows you to perform flood tests faster, further allowing you to install tile that much faster. Our pre-sloped shower pans, niches, ramps, curbs, pans and drains are available as kits too. All components are pre-waterproofed, exceeding industry standards – saving additional time and labor. Single source supplier, works with LATICRETE® tile and installation materials providing fast installations, consistent outcomes and a Lifetime System Warranty*.
