

January 2021

Dear LATICRETE MVP,

LATICRETE, the industry leader in innovative high-performance solutions is pleased to introduce a new product, **NXT® Level Flow**. **NXT Level Flow** is a cement-based, high flowing, underlayment for use in leveling interior substrates from an 1/8" to 2" (3 - 51 mm). This product produces a flat, smooth, and hard surface for the installation of finished flooring after 48 hours. **NXT Level Flow** is extremely easy to apply because of its flowing characteristics. **NXT Level Flow** is a perfect addition to the NXT product line, the perfect starting point for your self-leveling needs!

NXT Level Flow provides you with all of these features and benefits:

- High Flowing - Allows for great coverage
- Low Viscosity - Easy to apply
- Self-Leveling - Smooths existing rough concrete
- Pourable and Pumpable - Perfect for small and large applications
- Minimal Downtime - Can be applied over concrete testing up to RH of 100%

On the [MVP Portal](#), you will find the following information:

- NXT Level Flow Data Sheet
- NXT Level Flow Sell Sheet
- NXT Level Flow Safety Data Sheet

NXT Level Flow will be available for shipment on February 8, 2021 and the product SKU is: 0903-0050-21. We are very excited about the launch of this latest addition to the LATICRETE® Concrete Remediation product line and hope you are as well. If you have any questions, contact me, your LATICRETE Distributor or LATICRETE Technical Sales Representative.

Thank you again for supporting LATICRETE!

Elvis R. Torres

A handwritten signature in black ink that reads "Elvis R. Torres". The signature is fluid and cursive, with the first name being the most prominent.
