#### 1. **PRODUCT IDENTIFICATION**

TRADE NAME (as labeled): Clear PU Part B

CHEMICAL FAMILY: Aliphatic Polyisocyanate

MANUFACTURER'S/ DISTRIBUTOR'S NAME:

LATICRETE South East Asia Pte Ltd

38 Sungei Kadut,

Street 2 (Level2 A3),

Singapore 729245.

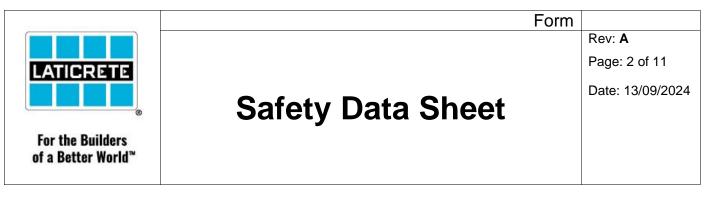

Phone number for additional information: (65) 6515 3028

Date prepared or revised: 13/09/2024

#### 2. <u>COMPOSITION INGREDIENTS</u>

- Substance / MIXTURE Mixture:
- Chemical Aliphatic Nature Polyisocyanate

COMPOSITION	CAS NUMBER	INGREDIENT	DANGER SYMBOLS	RISK / SSAFETY PHRASES
50% < c < 100%	28182-81-2	Aliphatic Poluisocyanate	Xi	PR43

#### 3. HEALTH HAZARD INFORMATION

According to ABNT-NBR 14725-4: 2014

: According to ABNT-NBR 14725-4: 2014

Classification of the GHS

Flammable liquids, Category 3 (H226)

Acute toxicity, Inhalant, Category 4 (H332)

Skin irritation, Category 2 (H315)

Eye irritation, Category (H319)

Skin sensitization, Category 1 (H317)

Specific target organ toxicity (single exposure), Category 3 (H335)

Specific target organ toxicity (repeated exposure), Category 2 (H373)

4. FIRST AID: EMERGENCY PROCEDURES

Inhalation	: Keep the person away from exposure. Rest your breathing. Keep the person warm and still. Seek medical attention.
Contact with skin	: Wash affected area thoroughly with soap and water. Remove contaminated clothing
Contact with eyes	: Flush eyes with copious amounts of water for 15 minutes.

protection and safety shoes

Environmental Precautions : To contain leaks use inert absorbent materials. Avoid contamination of soil, sewers, sewage systems and water bodies

Methods and materials for containment and : Removal: in large quantities, pumping material, if small quantities or debris, collect with absorbent material (sand, acid absorbent, universal absorbent, sawdust, vermiculite), incinerate using authorized specific installation

#### 7. HANDLING AND STORAGE

Precaution for safe handling	Keep away from heat and open flame. Ensure good ventilation and exhaustion of the site. Store at room temperature (25°C). Store away from moisture. Do not eat, drink or smoke at work. Protect from light. Use PPE's listed in section 8. Keep container closed when not in use. Keep out of reach of animals and children
Hygiene measures	Do not eat, drink or smoke during work
Conditions for packaging	Store in the original package tightly closed, in a ventilated environment, covered, away from sources of heat, food, at room temperature and observing the criteria of chemical compatibility. Avoid exposure to heat and direct sunlight
Materials for packaging	Safe packaging materials: Original product packaging (container with a lid to contain liquids, to transport observing section 14)

acetate

1-methyl-2- methoxyethyl acetate	108-65-6	EU ELV		
1,6- hexamethylene diisocyanate	822-06-0	BR OEL	TWA	48HRS 0,005 ppm

Exposure assessment value according to TRGS 430: The content of polyisocyanate (oligomers and / or prepolymers of HDI) is 75%. Use an exposure assessment (EBW) value of 0.5 mg /  $m^3$  here.

#### 8.2 Personal Protection Measures

Eye protection: Safety goggles with side protection, specific to chemical products

Skin and Body	Protective gloves, closed shoes and long-sleeved clothes
Protection	

Breath Semi-facial mask with filter against organic vapors protection

Respiratory Semi-facial mask with organic vapor filter Protection

#### 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance (physical state, shape and color)	: Liquid, colorless yellowish
Odor and Odor Threshold	: Characteristic
рН	: Not applicable
Boiling point	: 145ºC

For the Builders of a Better World™

Fusion Point:	: Not applicable
Flash Point:	: 38°C
Evaporation Rate	: 10 hPa a 20 °C 30 hPa a 50 °C 37 hPa a 55 °C
Flammability (solid, gas and liquid)	: There is no data available on this product
Lower / upper flammability or explosive limits	: Lower: 1% - Superior: 8%
Vapor Density	: There is no data available on this product
Density	: 1,07 g/cm³ a 25 °C
Solubility	: There is no data available on this product
Solubility in other solvents	: Not applicable
Partition coefficient: n- octanol / water	: There is no data on this product
Auto-ignition temperature	: 460°C
Thermal decomposition temperature	: There is no data available on this product
Viscosity	: There is no data available on this product

#### **10. STABILITY AND REACTIVITY**

Stability and reactivity	: The product is stable within the normal storage and handling conditions
Possibility of dangerous reactions	: Discharges of static electricity, base and strong acids
Conditions to be avoided	: Exposure to heat and sources of ignition
Incompatible materials	: No acquaintance
Hazardous Decomposition Products	: By fire: Carbon dioxide, carbon monoxide.

Hazardous polymerization will not occur

## 11. TOXICOLOGY INFORMATION

Information on possible exposure routes	: There is no data available	
Acute oral toxicity	: No information	
Acute toxicity inhalation	: No information	
Acute Dermal toxicity	: No information	
Acute toxicity (other routes of administration)	: No information	
Corrosion/Skin Irritation	: No information	
Severe eye injury/ocular irritation	: No information	
Respiratory or skin sensitization	: No information	
Germ cell mutagenicity	: No information	
Carcinogenicity	: No information	
Reproductive toxicity	: No information	
Specific target organ toxicity – single exposure	: No information	
Specific target organ toxicity – repeated exposure	: No information	
Danger by aspiration	: No information

## 12. DISPOSAL CONSIDERATIONS

CONSIDERATIONS ON FINAL DESTINATION	In the treatment and disposal of the product, of its residues and of used packaging, one must observe the local, state and national legislation. For disposal within the EU, use the waste code valid in each case according to the European Waste List (RSI)
WASTE TREATMENT METHODS	Directly after the last product has been removed, the packages must be emptied completely (so that there is no liquid, powder, granulate or paste in them). After neutralizing the product residues adhering to the walls of the container, void the product labels and the indications of danger. These packages can be delivered for recycling to the packing materials receiving centers of chemical industry return systems. The recovery of empty packagings must be carried out according to the national legislation and the norms on the protection of the environment.

## 13. TRANSPORT INFORMATION

TERRESTRIAL	: Decree 96044/88 and Resolution ANTT 420/04
UN number:	: 1866
Proper shipping name	: Resin, Flammable solution
Risk class	: 3
Number of Hazard	: 30
Packing group:	: III

#### 14. REGULATORY INFORMATION

14.1 Safety, health and environmental regulations / legislation specific for the substance or mixture.

Directive 2012/18 / EU for the control of majoraccident hazards involving dangerous substances.

P5c Flammable liquids

Quantidad1: 5.000t Quantidad2: 50.000t

Class of water contamination (Germany) 2 water contaminant (according to Appendix 4 VwVwS)

Observe information sheet M 044 on the manufacture of polyurethanes and isocyanate processing and M 017 on solvents from BG Chemie (German Chemical Industry Association).

14.2 Chemical Safety Assessments

There is no Chemical Safety Assessment for this substance / mixture or its components

#### 15. OTHER INFORMATION

Full text of the hazard statements referred to in sections 2, 3 and 10 of the CLP Classification  $(1272/2008 \ / \ EC)$ .

H226 Flammable liquid and vapor.

H302 Harmful if swallowed.

H304 May be fatal if swallowed and enters airways.

H312 Harmful in contact with skin.

H315 Causes skin irritation.

H317 May cause an allergic skin reaction.

H319 Causes serious eye irritation.

H330 Inhalation-fatality.

H332 Harmful by inhalation.

H334 May cause allergy or asthma symptoms or breathing difficulties when inhaled.

H335 May cause respiratory irritation.

H373 May cause damage to organs through prolonged or repeated exposure.

The product is used above all as a hardener in coating materials or adhesives. Handling of coating materials or adhesives containing reactive polyisocyanates and residual HDI monomer contents requires appropriate protective.
