Fire extinguishing materials : Water spray, carbon dioxide, dry chemical or alcohol-resistant foam.

Special firefighting procedures : Do not use a solid water stream as it may scatter and spread fire. In case of fire and/or explosion do not breathe fumes. Wear full protective clothing, including helmet, self-contained positive pressure or pressure demand breathing apparatus, protective clothing and face mask. Move containers from fire area if you can do it without risk.

Unusual fire and explosion hazards : During fire, gases hazardous to health may be formed. Will burn if involved in a fire.

## **6. ACCIDENTAL RELEASE MEASURES**

Spill response procedures (include employee protection measures) :

Keep unnecessary personnel away. Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Ventilate. Wear appropriate protective equipment and clothing during clean-up. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained.

Large Spills: Remove sources of ignition. Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
