### 1. **PRODUCT IDENTIFICATION**

TRADE NAME (as labeled): SPECTRALOCK® 1 PRE-MIXED GROUT

MANUFACTURER'S/ DISTRIBUTOR'S NAME:

LATICRETE South East Asia Pte Ltd

38 Sungei Kadut,

Street 2 (Level2 A3),

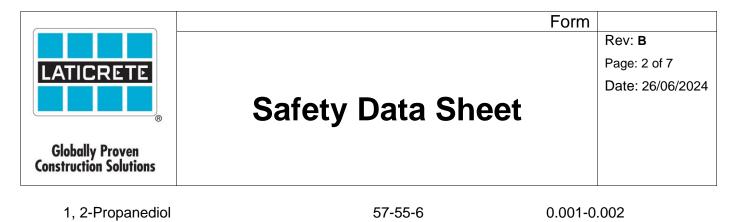

Singapore 729245.

Phone number for additional information: (65) 6515 3028

Date prepared or revised: 26/06/2024

### 2. <u>HAZARDOUS INGREDIENTS</u>

| CHEMICAL NAMES                  | CAS NUMBER | PRECENT*      |
|---------------------------------|------------|---------------|
| Quartz                          | 14808-60-7 | 70-44         |
| Titanium dioxide                | 13463-67-7 | 0.02-5.5      |
| Cellulose                       | 9004-34-6  | 0.93-1.04     |
| Carbon acid, calcium salt (1:1) | 471-34-1   | 0.4-0.6       |
| Kaolin                          | 1322-58-7  | 0.21-0.32     |
| Calcium chloride                | 10043-52-4 | 0.03-0.034    |
| White mineral oil, petroleum    | 8042-47-5  | 0.01-0.02     |

| Polyethylene glycol             | 25322-68-3 | <0.0075       |
| 3 (2H)-Isothiazolone, 2-methyl- | 2682-20-4  | 0.0057-0.0063 |
| Silica, amorphous               | 7631-86-9  | 0.001-0.005   |

\*Percentages are listed in weight by weight percentage (w/w%) for liquid and solid ingredients. Gas ingredients are listed in volume by volume percentage (v/v%).

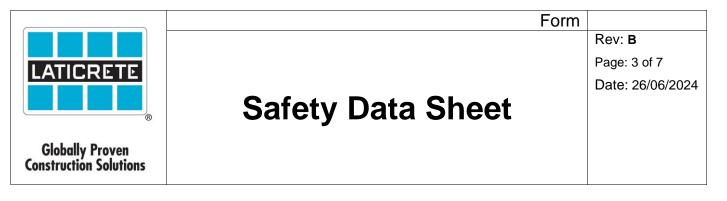

#### 3. HEALTH HAZARD INFORMATION

| GHS-US/CA Classification: |      |  |
|---------------------------|------|--|
| Skin Sens. 1              | H317 |  |
| Carc. 1A                  | H350 |  |
| STOT SE 3                 | H335 |  |
| STOT RE 1                 | H372 |  |

Full text of hazard classes and H-statements : see section 16

| Signal Word :            | Danger   |
|--------------------------|--|
| Hazard Statements :      | H317 - May cause an allergic skin reaction.<br>H335 - May Cause respiratory irritation.<br>H350 - May cause cancer (inhalation).<br>H372 - Causes damage to organs (lungs) through prolonged or<br>repeated exposure (inhalation).   |
| Precautionary Statements | <ul> <li>:</li> <li>P201 - Obtain special instructions before use.</li> <li>P202 - Do not handle until all safety precautions have been read and understood.</li> <li>P 260 - Do not breathe dust.</li> <li>P264 - Wash hands, forearms and face thoroughly after handling.</li> <li>P270 - Do not eat, drink or smoke when using this product.</li> <li>P271 - Use only outdoors or in a well-ventilated area.</li> <li>P272 - Contaminated work clothing should not be allowed out of the workplace.</li> <li>P280 - Wear protective gloves, protective clothing, and eye protection.</li> <li>P302+P352 - IF ON SKIN: Wash with plenty of water.</li> </ul> |

P304+P340 - IF INHALED: Remove person to fresh air and keep comfortable for breathing. P308+P313 - If exposed or concerned: Get medical advice/attention.

- P312 Call a POISON CENTER or doctor if you feel unwell.
- P314 Get medical advice/attention if you feel unwell.
- P321 Specific treatment (see section 4 on this SDS).
- P333+P313 If skin irritation or rash occurs: Get medical advice/attention.
- P362+P364 Take off contaminated clothing and wash it before use.
- P403+P233 Store in a well-ventilated place. Keep container tightly closed.
- P405 Store locked up.
- P501 Dispose of contents/container in accordance with local, regional, national territorial, provincial, and international regulations.

Other hazards: Exposure may aggravate pre-existing eye, skin, or respiratory conditions.

#### 4. FIRST AID: EMERGENCY PROCEDURES

**Description of First-aid Measures** 

| General             | : Never give anything by mouth to an unconscious person. If you feel   |
|---------------------|--|
|                     | unwell, seek medical advice (show the label where possible).   |
| Inhalation          | : When symptoms occur: go into open air and ventilate suspected area.<br>Obtain medical attention if breathing difficulty persists.  |
| Skin Contact        | : Remove contaminated clothing. Immediately drench affected area with water for at least 15 minutes. If exposed or concerned: Get medical advice/attention. Drench affected area with water for at least 15 minutes. |
| Eye Contact         | : Rinse cautiously with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Obtain medical attention.   |
| Ingestion           | : Rinse mouth. Do NOT induce vomiting. Obtain medical attention.   |
| Most Important Symp | ptoms and Effects Both Acute and Delayed   |
| General             | : May cause respiratory irritation. Skin sensitization. Causes damage to organs (lungs) through prolonged or repeated exposure (Inhalation). May   |

cause cancer (Inhalation).

|  | Form  |   |
|--|---|---|
| <b>LATICRETE</b><br>Biobally Proven<br>Construction Solutions                  | Safety Data Sheet   | Rev: <b>B</b><br>Page: 4 of 7<br>Date: 26/06/2024   |
| Inhalation<br>Skin Contact :<br>Eye Contact :<br>Ingestion<br>Chronic Symptoms | : Irritation of the respiratory tract and the other mucous members three types of silicosis include: 1) Simple chronic silicosis – w from long-term exposure (more than 20 years) to low amounts respirable crystalline silica. Nodules of chronic inflammation approved by the respirable crystalline silica form in the lungs alymph nodes. This disease may feature breathlessness and n resemble chronic obstructive pulmonary disease (COPD); 2) a silicosis – occurs after exposure to larger amounts of respirable crystalline silica over a shorter period of time (5-15 years); 3) silicosis – results from short-term exposure to very large amorespirable crystalline silica. The lungs become very inflamed a with fluid, causing severe shortness of breath and low blood of levels. Inflammation, scarring, and symptoms progress faster accelerated silicosis than in simple silicosis. Progressive mas may occur in simple or accelerated silicosis, but is more comma ccelerated form. Progressive massive fibrosis results from short-term exposure for suscarring and leads to the destruction of normal lung structures May cause an allergic skin reaction. May cause slight irritation to eyes. :Ingestion may cause adverse effects. :Causes damage to organs (lungs) through prolonged or repersouser (Inhalation). Some studies show that exposure to recrystalline silica (without silicosis) or that the disease silicosis associated with the increased incidence of several autoimmut such as scleroderma (thickening of the skin), systemic lupus erythematosus, rheumatoid arthritis and disease and end-stage disease in workers exposed to respirable crystalline silica. Ma cancer by inhalation. | hich results<br>s of<br>and scarring<br>and chest<br>hay<br>Accelerated<br>ble<br>Acute<br>unts of<br>and may fill<br>bxygen<br>in<br>sive fibrosis<br>mon in the<br>evere<br>s.<br>eated<br>espirable<br>may be<br>ne disorders<br>e kidneys.<br>w an<br>renal |

Indication of Any Immediate Medical Attention and Special Treatment Needed If exposed or concerned, get medical advice and attention. If medical advice is needed, have product container or label at hand.

#### 5. FIRE FIGHTING MEASURES

Extinguishing Media

Suitable Extinguishing Media

: Water spray, fog, carbon dioxide (CO2), alcohol-resistant foam, or dry chemical.

| LATICRETE                                 | Form<br>Safety Data Sheet                                  | Rev: <b>B</b><br>Page: 5 of 7<br>Date: 26/06/2024 |
|---|--|---|
| Globally Proven<br>Construction Solutions |  |   |
| Unsuitable Extingu                        | ishing Media : Do not use a heavy water stream. Use of hea | avy stream of                                     |

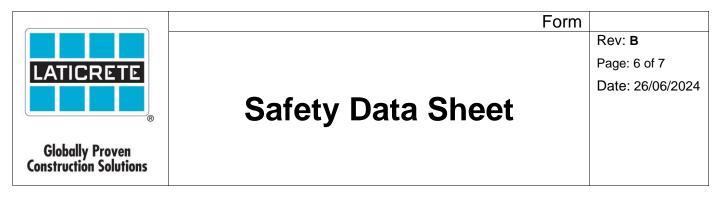

|                                     | water may spread fire.   |
|-------------------------------------|--|
| Special Hazards Arising from the Su | bstance or Mixture   |
| Fire Hazard                         | : Not considered flammable but may burn at high temperatures.  |
| Explosion Hazard                    | : Product is not explosive.  |
| Reactivity                          | : Quartz (silica) will dissolve in hydroflouric acid producing a corrosive gas, silicon tetrafluoride.       |
| Advice for Firefighters             |  |
| Precautionary Measures Fire         | : Exercise caution when fighting any chemical fire.  |
| Firefighting Instructions           | : Use water spray or fog for cooling exposed containers.   |
| Protection During Firefighting      | : Do not enter fire area without proper protective   |
|                                     | equipment, including respiratory protection.   |
| Hazardous Combustion Products       | : Carbon oxides (CO, CO2). Metal oxides. Unidentified hydrocarbons. Silica compounds. Sulfur dioxide. Smoke. |

Reference to Other Sections Refer to Section 9 for flammability properties.

### 6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures General Measures : Do not breathe dust. Do not get in eyes, on skin, or on clothing. Do not handle until all safety precautions have been read and understood.

| For Non-Emergency Personnel |  |  |  |
|-----------------------------|--|--|--|
| Protective Equipment        | : Use appropriate personal protective equipment (PPE).   |  |  |
| Emergency Procedures        | : Evacuate unnecessary personnel.  |  |  |
| For Emergency Personnel     |  |  |  |
| Protective Equipment        | : Equip cleanup crew with proper protection.   |  |  |
| Emergency Procedures        | : Upon arrival at the scene, a first responder is expected to recognize the presence of dangerous goods, protect oneself and the public, secure the area, and call for the assistance of trained |  |  |
|                             | personnel as soon as conditions permit. Ventilate area.  |  |  |

Environmental Precautions Prevent entry to sewers and public waters.

Methods and Materials for Containment and Cleaning Up

For Containment : Contain solid spills with appropriate barriers and prevent migration and entry into sewers or streams.

Methods for Cleaning Up : Clean up spills immediately and dispose of waste safely. Recover the product by vacuuming, shoveling or sweeping. Transfer spilled material to a suitable container for disposal. Contact competent authorities after a spill.

Reference to Other Sections

See Section 8 for exposure controls and personal protection and Section 13 for disposal considerations.

#### 7. HANDLING AND STORAGE

Precautions for Safe Handling

| Precautions for Safe Handling | : Wash hands and other exposed areas with mild soap and<br>water before eating, drinking or smoking and when leaving<br>work. Avoid contact with eyes, skin and clothing. Obtain<br>special instructions before use. Do not handle until all |
|-------------------------------|--|
| Hygiene Measures              | safety precautions have been read and understood. Do not<br>breathe dust. Avoid creating or spreading dust.<br>: Handle in accordance with good industrial hygiene<br>safety procedures.   |

Conditions for Safe Storage, Including Any Incompatibilities

| Technical Measures     | : Comply with applicable regulations.  |
|------------------------|--|
| Storage Conditions     | : Keep container closed when not in use. Store in a dry, cool place. Keep/Store away from direct sunlight, extremely high or low temperatures and incompatible |
|                        | materials. Store locked up/in a secure area. Keep from freezing, material may develop bacteria odor on long term storage.                                      |
| Incompatible Materials | : Oxidizers. Metal salts. Bases. Strong acids.   |

Specific End Use(s) Grout.

Ready to use grout. For professional use only.

Appropriate Engineering Controls : Suitable eye/body wash equipment should be available in the vicinity of any potential exposure. Ensure adequate ventilation, especially in confined areas. Ensure all national/local regulations are observed.
 Personal Protective Equipment : Gloves. Protective clothing. Protective goggles.

Insufficient ventilation: wear respiratory protection.

- Materials for Protective Clothing : Chemically resistant materials and fabrics.
- Hand Protection: Wear protective gloves.
- Eye and Face Protection: Chemical safety goggles.
- Skin and Body Protection : Wear suitable protective clothing.
- Respiratory Protection : If exposure limits are exceeded or irritation is experienced, approved respiratory protection should be worn. In case of inadequate ventilation, oxygen deficient atmosphere, or where exposure levels are not known wear approved respiratory protection.

# Safety Data Sheet

Globally Proven Construction Solutions

| Solubility                             | : Not available |
|--|-----------------|
| Partition Coefficient: N-Octanol/Water | : Not available |
| Viscosity                              | : Not available |

### 10. STABILITY AND REACTIVITY

| Reactivity                         | : Quartz (silica) will dissolve in hydroflouric acid producing a corrosive gas, silicon tetrafluoride. |
|------------------------------------|--|
| Chemical Stability                 | : Stable under recommended handling and storage conditions (see section 7).                            |
| Possibility of Hazardous Reactions | : Hazardous polymerization will not occur.   |
| Conditions to Avoid                | : Direct sunlight, extremely high or low temperatures, and incompatible materials.                     |
| Incompatible Materials             | : Oxidizers. Metal salts. Bases. Strong acids.   |
| Hazardous Decomposition Products   | : Not expected to decompose under ambient conditions.  |
|                                    | Will decompose above 150 °C (> 300 °F) releasing   |
|                                    | formaldehyde vapors.   |

### 11. TOXICOLOGY INFORMATION

| Information on Toxicological Effects – Product |  |
|--|--|
| Acute Toxicity (Oral)                          | : Not classified                       |
| Acute Toxicity (Dermal)                        | : Not classified                       |
| Acute Toxicity (Inhalation)                    | : Not classified                       |
| LD50 and LC50 Data                             | : Not available                        |
| Skin Corrosion/Irritation                      | : Not classified                       |
| Eye Damage/Irritation                          | : Not classified                       |
| Respiratory or Skin Sensitization              | : May cause an allergic skin reaction. |
| Germ Cell Mutagenicity                         | : Not classified                       |
| Carcinogenicity                                | : May cause cancer (Inhalation).       |

Globally Proven Construction Solutions

# Safety Data Sheet

| Specific Target Organ Toxicity (Repeated Exposure) | : Causes damage to organs (lungs) through prolonged or repeated exposure (Inhalation).  |
|--|---|
| Reproductive Toxicity                              | : Not classified.   |
| Specific Target Organ Toxicity (Single Exposure)   | : May cause respiratory irritation.   |
| Aspiration Hazard                                  | : Not classified  |
| Symptoms/Injuries After Inhalation                 | : Irritation of the respiratory tract and the other<br>mucous membranes. The three types of silicosis<br>include: 1) Simple chronic silicosis – which results<br>from long-term exposure (more than 20 years) to<br>low amounts of respirable crystalline silica. Nodules<br>of chronic inflammation and scarring provoked by<br>the respirable crystalline silica form in the lungs and<br>chest lymph nodes. This disease may feature<br>breathlessness and may resemble chronic<br>obstructive pulmonary disease (COPD); 2)<br>Accelerated silicosis – occurs after exposure to<br>larger amounts of respirable crystalline silica over a<br>shorter period of time (5-15 years); 3) Acute<br>silicosis – results from short-term exposure to very<br>large amounts of respirable crystalline silica. The<br>lungs become very inflamed and may fill with fluid,<br>causing severe shortness of breath and low blood<br>oxygen levels. Inflammation, scarring, and<br>symptoms progress faster in accelerated silicosis<br>than in simple silicosis. Progressive massive<br>fibrosis may occur in simple or accelerated silicosis,<br>but is more common in the accelerated form.<br>Progressive massive fibrosis results from severe<br>scarring and leads to the destruction of normal lung<br>structures. |
| Symptoms/Injuries After Skin Conta                 | : May cause an allergic skin reaction.  |
| Symptoms/Injuries After Eye Conta                  | ct : May cause slight irritation to eyes.   |

# **Safety Data Sheet**

Symptoms/Injuries After Ingestion

**Chronic Symptoms** 

: Ingestion may cause adverse effects.

: Causes damage to organs (lungs) through prolonged or repeated exposure (Inhalation). Some studies show that exposure to respirable crystalline silica (without silicosis) or that the disease silicosis may be associated with the increased incidence of several autoimmune disorders such as scleroderma (thickening of the skin), systemic lupus erythematosus, rheumatoid arthritis and diseases affecting the kidneys. Silicosis increases the risk of tuberculosis. Some studies show an increased incidence of chronic kidney disease and end-stage renal disease in workers exposed to respirable crystalline silica. May cause cancer by inhalation.
